

Indevus Urgency Severity Scale (IUSS)

Degree of urgency is meant to describe your urge to urinate. Sometimes you may feel a very strong urge to urinate, and at other times, you may feel a milder urge prior to the onset of a toilet void. Rate this feeling by circling 0, 1, 2, or 3, defined as:

0: NONE-no urgency

1: MILD-awareness of urgency, but is easily tolerated and you can continue with your usual activity or tasks.

2: MODERATE-enough urgency discomfort that is interferes with or shortens your usual activity or tasks.

3: SEVERE: extreme urgency discomfort that abruptly stops all activity or tasks.

Nixon A, Colman S, Sabounjian L, Sandage B, Schwiderski UE, Staskin DR, Zinner N. A validated patient reported measure of urinary urgency severity in overactive bladder for use in clinical trials. J Urol. 2005 Aug;174(2):604-7. [annabel.nixon@quintiles.com]
